## XI'AN INTERNATIONAL STUDIES UNIVERSITY

To dear XISU students,

Given that the outbreak of conoravirus in China, in accordance with the unified deployment of Shaanxi Provincial Department of Education, Xi'an International Studies University, after research, has decided to **postpone the starting date of the spring semester of 2020**. The specific information on the date for starting school and follow-up arrangements will be announced with further notice based on the future situation of epidemic prevention and control. Please **do not** return to school for registration **in advance**.

Under special circumstances, students who return to school in advance have to go through the following procedures:

First, report to **your faculty** once you arrive on campus; report the **travel history** during vacation to your faculty and school infirmary, go for **fitness check up**, and sign the *Commitment by International Students under On-Campus Medical Surveillance at XISU*.

Second, students who return to school in advance, upon arrival, must be kept **in quarantine for 15 days** in No.4 Student Dormitory on Yanta campus. **Students bear all expenses** including accommodation, catering and other expenses **incurred during quarantine**.

During 15-day quarantine, it is **the faculty** that is responsible for the on-campus management of the quarantined student including a daily fitness report to the school hospital. For students with travel history to the epidemic area and contact with people from the epidemic area, confirmed cases and suspected cases, a **medical quarantine** shall be enforce by a designated person.

In view of the serious situation of the disease control, here once again, to avoid cross infection and imported cases, **we reaffirm that** Please **do not** return to school for registration **in advance** before further notice from the school.

Everyone bears his or her share of the responsibility for the epidemic prevention and control. We sincerely hope you could understand the preventive measures taken by the school and we could work together to get through the difficult time.

Attachment 1:

Commitment by International Students under On-Campus  
Medical Surveillance at XISU

1. I promise that I will cooperate with disease control and prevention efforts, and that the information that I provided during interviews by my school and the university clinic is true.
2. I will cooperate with dormitory checks the school and the clinic undertakes. During the 15 days of isolation, I promise I will not meet others, participate in activities, receive any other persons in the dormitory and keep good ventilation.
3. If symptoms such as fever and coughing occur, I will report to the school and the clinic at first time and go to the clinic for diagnosis and treatment.
